

Are you seeking to develop and implement new ways of working in your organisation?

Chris Stagg Associates plays a lead role in organisational development and learning

Using powerful tools and processes from the world of the arts, we:

- act as a catalyst for positive change
- lead facilitation, creative development and theatre based training
- drive innovation and create new possibilities for success

Businesses and organisations must constantly find new routes to the future, new ways of working and the creativity to stand out from the competitive crowd.

Chris Stagg Associates use powerful tools from the world of the arts to drive organisational developments, new learning and improved performance in the real world.

We work with you and your people to draw out and deploy innovation and creativity. By reflection, engagement and entertainment we produce memorable events and processes that command attention and make training and development come alive!

Whether you need to:

- facilitate team events that achieve successful outcomes
- lead creative development of winning strategies and plans, or
- deliver unique theatre-based training that changes attitudes and develops skills

Call Chris Stagg now on 01273 690811

to arrange a no-obligation meeting to discuss how you can move your organisation forward in a positive way, with your people engaged, enthused and energised

Client quotes about Chris Stagg Associates

Nick Candler, finance director, Pret A Manger

I have worked with Chris on various projects including a recently completed Leadership Programme which he designed for my team. He is creative yet practical. He understands the theory but listens carefully to the participants with programmes tailor-made to the audience, ensuring relevance. The artistic element ensures those involved stop and take notice and so it is not "just another training day". Really worthwhile!

Roger Churchill, managing director, Lohmann Technologies UK

Chris brought a breath of fresh air and new methodologies into a well-worn area of training. By adopting an innovative and participative approach he is able to ensure a new perspective is taken by participants. We found the Mapping exercises an excellent way of bringing individuals' needs/desires together and fitting them into the whole organization's capabilities. In doing so we were better able to create a much clearer understanding of the "whole" by each of the "smaller parts". In short, Chris provided a fantastic strategic planning process. We have run three sessions with Chris and have found each brought new benefits.

Front-line manager, Eurotunnel

I am writing to you to express my views on the latest commercial training course at the Grand Hotel. I have experienced training courses one a year for the last 13 years of my working life and this was without doubt the best course I have ever done. The day was entertaining and informative and the trainer and actors gave an electric atmosphere to the room which made time fly past. Everything about the day was original and refreshing, a great day with many lessons learned.

Lindsay Adams, Head of Community Development, Crawley Borough Council

Chris Stagg takes an innovative and flexible approach, introducing tools within workshops that are great for engagement. I have also really valued his commitment in preparation – his enthusiasm for, and understanding of, the subject matter of community development – was really supportive. We were able to remain focused on our target throughout the workshop process, and the resulting action plan for the Community Development Strategy is well informed. Thanks Chris!
